

Miami Knows Beauty Owner Walkthrough

A public-safe summary of the salon owner journey: claim free, manage the listing, upgrade to Featured, and use the included marketing tools.

1. Find your listing

Prospective owners can inspect their Miami Knows Beauty listing first. The public listing shows the salon profile, contact actions, neighborhood, category, and claim path.

2. Claim it free

Owners can claim their listing without a credit card. The claim form asks for name, email address, role at the salon, and a short note for review.

3. Sign in to the dashboard

After approval, owners sign in with an emailed six-digit code. No password is required.

4. Manage the profile

The owner dashboard gives the salon a place to review its listing, update profile details, manage a full gallery of up to 12 unique owner photos that help the salon stand out, see inquiries, and keep the page current.

5. Upgrade to Featured

Featured is \$29 per month and takes no booking commission. Featured salons receive a visible badge, stronger directory visibility, and owner tools.

6. Use Marketing AI

Featured owners can generate Instagram captions and ad copy in seconds, using prompts tailored to their salon and offer.

7. Share the feature

Featured owners can use badge and sharing tools to promote that they are listed on Miami Knows Beauty and send visitors back to their profile.
